

## The Ladies Love It!

Attention woman: This book makes THE PERFECT GIFT for the man – OR MEN! – in your life!

*“After my husband read this book he traded his electric shaver for the traditional razor shave. Now every shave leaves his cheeks softer than silk! How I LOVE it! And on top of it all, shaving relaxes him! It’s no longer just a chore, so now he shaves every night before coming to bed. Yummy!!!” – RHS*

## Perfect For A Young Man

We can't think of a better way to get a young man off to a good start in life and grooming than by showing him TRADITIONS that have sustained men for countless generations. Show a young man on the verge of jumping into life the way to turn a chore into something super-special!

Teach him how to enjoy one of life's true luxuries! Instead of thinking of shaving as an annoying chore, open a young man's eyes to the pleasures of taking some time FOR HIMSELF every day – a welcome break from the stress and hurry of the world. A traditional shave *WITHOUT ANY OF THE HASSLES* gives a man more than just a mere sybaritic indulgence. This kind of shaving can spur THOUGHT and CREATIVITY:

## Reader Testimonials!

### *Men Who Shave This Way Say:*

*"I used to shave quickly in the shower with a cheap disposable razor. Shaving was just another daily function. For years I wondered about an old-fashioned shave like you see in movies. A good friend shaved this way after he read A MODERN WAY TO AN OLD FASHIONED SHAVE and told me I don't know what I am missing. I got the book and man, was he right! I LOVE shaving this way!"*

**"This is one helluva of a funny book! I laughed so hard and learned so much that I couldn't put it down till I finished. Then I followed the book's advice and got everything you need to get started with REAL shaving. Soap, brush, shaver, mug (I got the same mug the author uses for a song!), everything. The book shows you how to get what you need at a fraction of the cost others pay!"**

## Traditional Shaves With NO Hassles!

### **You Don't Need 5 Blades!**

Don't waste money on costly shavers with FIVE blades when ONE Blade does a better job. ONE blade has worked out just fine for men over the course of centuries. If you have to use five blades, then FOUR of them don't do their job!

If you ever considered a traditional shave, but got put off by the hassles of stropping and honing and then oiling the whet stone or waxing the strop or rust-proofing the razor... *We don't blame you!* These tools exist for US. We don't exist to take care of a bunch of tools. Well, men can now say goodbye to all that hassle! This book shows you an easy MODERN way to get an OLD FASHIONED shave... with just a HALF of a razor blade! Not FIVE.
